Adamcová, Z.,
Film-forming electropolymerization, 295

Basu, M.,
Recent development for water-based resins for surface coatings, 19

Biegańska, B.,
Influence of barrier pigments on the performance of protective organic coatings, 219

del Amo, B.,
The use of calcium resinate in the formulation of soluble matrix antifouling paints based on cuprous oxide, 165

Dempírová, L.,
see Adamcová

Endo, R.,
Preparation of latex particles by emulsion polymerization with amphoteric surfactants and interactions of latex particles thus prepared and pigments, 51

Eng, K.,
Activity coefficients in polymer solutions, 77

Esumi, K.,
